**Date:** 1/3/02 2:14pm  
**Subject:** Microsoft Settlement

Gentlemen:

I feel that the settlement process should go forward with haste. The public and Microsoft have paid a huge price to get to this point and to continue to waste taxpayer dollars is wrong. Microsoft has been an innovator in the tech industry for a long time and they should have the opportunity to continue to do so for the good of the country and its consumers. Please see that this reaches a conclusion soon

Sincerely,

Herbert A Barr
